STRICTLY WHOLESALE

JANUARY 1926

All offers are subject to prior sale, shortage or failure of crops, or other causes beyond our control. We give no warranty express or implied and will not be in any way responsible for the results of planting or forcing of any plants, roots or shrubs sent out.

While we take great care in not booking more orders than our stock warrants, we reserve the right to pro-rate all orders if at the time of digging we find shortages do exist.

This list supersedes all previous lists.

Azalea hinodegiri , bushy plants, field grown.....	per 100	diam.	4-6 in.	\$ 50.00
	"	"	6-8 in.	75.00

<i>Retinospora obtusa nana</i> ,	"	4-6 in.	50.00
<i>Retinospora obtusa gracilis</i> ,	"	6-8 in.	50.00
" " "	"	8-10 in.	60.00
<i>Thuya occidentalis lutea</i> , (George Peabody)	"	6-8 in.	40.00
" " "	"	8-10 in.	50.00
<i>Thuya occidentalis pyramidalis</i> ,	"	8-10 in.	50.00
" " "	"	10-12 in.	60.00
<i>Thuya occidentalis spiralis</i> ,	"	8-10 in.	50.00

We have no more French Lilacs to offer this Spring. Next Fall we will again have a large quantity of the better french varieties and also of the newest Lilacs which are rapidly being appreciated by the public.

We also will have to offer Lilac JAN VAN TOL which was distributed for the first time in 1925. This variety was universally admired at London and other Flower Shows ; it is difficult to describe this Lilac, none is more perfect white, none has larger trusses, none has larger individual single flowers, none flowers more freely, none is better for forcing.

We are ready to book advance orders now, the price at which we will offer this Lilac will depend on the stock available, which again will depend on our stand.

Ask for a photograph, we will be glad to send one.
